

VOLUME XLIV.

GEN. ROBERTS ALSO TAKES BRANDFORT

British Army Another Step Nearer to the Transvaal Capital.

KROONSTADT IS NEXT

Stirring Events Are on the Cards Now in the South African War.

BOERS RETREAT TO WINBURG

London, May 4.—[Special Cablegram]—Gen. Roberts wires from Brandfort, thirty-seven miles north of Bloemfontein this morning as follows: "We occupied Brandfort today without much opposition and, I hope, many casualties."

"The first brigade of mounted infantry covered the left flank, the Fifteenth brigade supporting. Pole-Carew's division advanced directly on Brandfort. The Boer army under Dalgety retired in a northeasterly direction."

Stirring Events are Coming.

The above dispatch from Gen. Roberts dated at Brandfort is the first from the field marshal for eight weeks other than from Bloemfontein, which he occupied March 14. The occupation of Brandfort infuses fresh interest into the war and the British operations will be followed now more closely.

The monotony of the British halt at Bloemfontein ended today and stirring events are now on the cards. The disposition of the Boer forces to meet the aggressive British movement is not clear but it is apparent that they are not contesting Roberts' main advance. It is likely they will fall back on Winburg, forty miles northeast of Brandfort, thence to Kroonstad where preparations for a stubborn resistance are being made.

The Brandfort dispatch says that only the Irish-American contingent fighting with the Boers, resisted the entry of the British into Brandfort. They retired before Hutton's brigade. The Boers shelled Tucker's division considerable, but finally retired along the line.

BRITISH BOUND FOR PRETORIA

Lord Roberts Making Rapid Advance into the Transvaal.

London, May 4.—Lord Roberts' general advance toward Pretoria may now properly be said to be in progress. Troops are pressing back the Boers north of Thabanchu, while Gen. Pole-Carew, with the Eleventh division, is thought to be threatening their rear in the vicinity of the headwaters of the Orange. It is the general belief in London that Lord Roberts' dispositions are such that the Boers east of Thabanchu and also those in the neighborhood of Ladybrand will shortly be compelled to retreat toward Winburg in order to save their communications. Apparently there is no escape for them to southward, since Gens. Brabant and Chermiside command all the roads in that direction. It seems that the majority of Gen. French's cavalry is still at Thabanchu, where the fighting continues, though intermittently. The British hold Sanna's post and occupy positions on the ridges north of Kottan's spruit.

It is regarded as likely that Lord Roberts will shortly attack the Boers at Brandfort unless they evacuate the town. It is said that the Boers have prepared intrenchments on all the strategic kopjes of importance near Winburg and Kroonstad, and that Lord Roberts in order to flank these positions will be compelled to deploy his army over an immense extent of country. Operations all along the line of battle are proving extremely arduous and it is expected that the British progress will be slow.

Have British Captured Brandfort? London, May 4.—It is announced that the British have captured Brandfort.

British surprised the Boers, who retreated hastily. Col. Tucker's artillery had a sharp duel with the enemy's guns and put two of them out of action.

REPULSED BY THE FILIPINOS

Reconnoitering Party of Twenty-Six Infantry Surrounded in Panay

Manila, May 4.—A dispatch received here today from Iloilo reports that a desperate fight took place at Leambanao, in the center of the island of Panay. A reconnoitering party of the Twenty-sixth Infantry was surrounded, and four of the Americans were killed and sixteen others, severely wounded, were left on the field. The Filipinos retreated when reinforcements arrived.

GOV. ROOSEVELT MAY MAKE TERMS

Will Accept Vice Presidency if McKinley Will Support Him in 1904 for President.

Washington, D. C., May 4.—One of the New York governor's intimate friends said today:

"When Governor Roosevelt comes to Washington next week he will see the president. The vice presidency will be discussed. Roosevelt will ask President McKinley one question and demand one pledge. He will say to the president: 'If I consent to go on the ticket with you will you use your influence and get for me the influence of the republican leaders to make me your successor?'"

"If McKinley says yes Roosevelt will consent to accept a hurrah nomination at Philadelphia on the ground that no man can withstand such a call to duty. If McKinley says no Roosevelt will refuse to accept the nomination, even if it is by acclamation. 'The governor wants to be president. He thinks he will be president. He absolutely refuses to imperil his chances by taking the vice presidency unless he sees something in it for himself. If he can get pledges from McKinley and from other big republicans of the country that they will practically slate him for president in 1904 he will accept. If he cannot get these pledges he will run for governor and take his chances in 1904 with Fairbanks, who will be a candidate and such other men as may be developed.'"

Arrest Fighters in Gotham.

New York, May 4.—To ascertain whether the recent action of the police commissioners in prohibiting boxing contests in this city is legal, the officials of the Broadway Athletic club held a boxing bout in the club's arena. All the participants were arrested. They were subsequently arraigned before Magistrate Mead in the Jefferson Market police court and paroled until Friday morning for a hearing.

Thought to Be in Eruption.

Red Bluff, Cal., May 4.—The north peak of Lassen buttes, long supposed to be extinct, is now thought to be in eruption. A heavy column of gray smoke is issuing from the old crater and a heavy rumble is constantly heard from the mountain. The spectacle is attracting great attention. Lassen buttes are two isolated peaks that rise directly out of the north end of the great Sacramento valley.

BISHOP'S ADDRESS TO THE METHODISTS

POSITIONS OF THE CHURCH ON QUESTIONS OF THE DAY.

Minister's Time Limit is Doomed—Strong Utterances on Lay Rights and Amusements—For Christian Citizenship—Document Considered Able and Important.

Chicago, May 4.—Full of confidence in the future of their church and in the power of the religion it practices, the bishops of the Methodist Episcopal church issued their quadrennial address to the general conference at its session at the auditorium yesterday morning.

They traced the development of Methodism in the United States, showing that in this century, while the population of the country has increased fourteen-fold, the communicants of the various Methodist churches, all children of the parent body, have increased ninety-seven fold.

They reviewed the elements of progress in the church, made their suggestions for changes and reforms in its organization and customs, and gave advice on the duties of christian citizenship to all of the members of their great flock, ministerial and lay.

Most Important of Late.

The address will be printed, and be sent to every Methodist world over who desires it. It was regarded as the most important address ever delivered by the bishops of the church, and one which would stamp itself upon the consciences and minds of the entire membership of the denomination.

It called forth this enthusiastic utterance after it had been read from Dr. Jam's Robertson, the fraternal delegate to the conference from the Irish Wesleyan church: "I regard it as the greatest utterance of ecclesiastical statesmanship ever made."

Bishop Andrews read the address, which required almost two hours for its delivery. The following are some of the suggestions and recommendations in the message:

Some of the Recommendations

We believe that in the clearer acceptance of christianity as spirit and not letter in the growing sense of individual right and responsibility, in the increase of altruistic feeling and in the multitude of sincere and earnest souls in our ministry and our laity there is evidence that the church is advancing toward the end of its high calling.

Ready concurrence in the equal lay representation act.

That the church has a message concerning trusts, labor unions, lockouts and strikes, capital and labor, tariffs and taxation, currency and the colonies, but it is not one of dictation and coercion.

Divorce statistics indicate that the glory of the pure family is suffering eclipse and if need be the church law should be amended to conform with the New Testament rule of marriage.

Amusements are being degraded, the attempt to enforce absolute abstinence from recreative amusements reacts toward unstrained indulgence; the amusement question deserves careful attention of the conference.

Sabbath desecration is increasing and the church must stand opposed to laxity.

The church must issue the call for a strenuous and militant political righteousness to meet the colossal evils that threaten the nation.

Entire removal of the time limit of pastors or limiting of appointment to three years, would be of advantage.

Abolition of Time Limit.

The attitude of the bishops, unfavorable to the present five year time limit for the ministry was a surprise to many of the delegates to the conference and the opinion was generally expressed in conversations yesterday that a change was almost certain. Though the bishops expressed an alternative proposition the applause that followed the part of it that proposed abolition of the time limit was so pronounced that it may be taken as marking a strong feeling of the convention in that direction.

Memorial on Amusements.

The Rev. William Fawcett is expected to bring forward the amusement question. He has prepared the following memorial which will be presented at the proper time:

"Let all that part of paragraph 248 relating to amusements be stricken from the paragraph, and in connection with section 3 of paragraph 193 let the following be added: 'And it shall be the duty of the pastor, on receiving members into the church, to earnestly counsel and advise them against all worldly pleasures and practices calculated in any way to destroy their spiritual growth and usefulness, such as dancing, playing at games of chance, attending theaters, horse racing, circuses, dancing parties or patronizing dancing schools.'"

New York, May 4.—[Special Telegram]—Two men and one woman dead and two missing was the result of three fires late last night. Daniel Mullins, a fireman, fell from a ladder at Central Islip lodging house fire, and was killed. John Curran, a lodger, was burned to death and sixteen others narrowly escaped.

DEMOCRATIC SCHEME A BOER CAMPAIGN

WILL PLAY POLITICS WITH COMING PEACE ENVOYS.

Republican Leaders are Scouting Trouble—Inducements Said to Have Been Held Out for the Delegates to Visit America—Teller Resolution Part of the Plot.

Washington, May 4.—Republican leaders here are scenting trouble in the coming of the Boer peace commission, which today sailed from Rotterdam for New York. It is apparent to them that a vigorous effort is to be made by the democrats to capitalize the South African war in the coming campaign.

Already Mr. Bryan's chief supporters in the senate are preparing the ground for this very peculiar scheme of politics. By the time the Boer envoys get here the plans of the democrats will be ready for further operations.

The Teller Resolution

Senator Teller's resolution, introduced yesterday, is a part of the program. That resolution, in a circumspect, moderate way, declares American sympathy with the struggling people of the South African republics. Notwithstanding the fact that the senate a few days ago voted not to take up a similar resolution introduced by Mr. Pettigrew, it is understood that the Teller resolution is to be pressed to a vote at the earliest opportunity.

The democratic leaders and other Bryanites will insist upon a full discussion of the question, and it is hoped that the speeches made in this debate will serve to fire the popular heart with a renewal of sympathy for the Boers, and that the vote when finally taken, will conclusively show that the republican party is opposed to the burghers and friendly to England.

Scheme to Make Votes.

In other words, when President Kruger's peace envoys arrive here they will find that they have a great political party in America supporting their demand for intervention in South Africa. It is hardly necessary to add that the objective of this programme, so far as the democratic leaders are concerned, is not peace in South Africa, but the election of Mr. Bryan by means of influence upon the German and other sympathetic vote throughout the United States.

There is naturally some nervousness in republican circles over this plot and its possible effect. It is generally recognized that the situation contains elements of danger, and there is a fear that the opposition may be able to take such advantage of the presence here of President Kruger's commissioners as to arouse a bitter feeling against the administration and the republican party.

Is a Contemptible Trick.

There are republicans of prominence who think it would be good politics to bow, or pretend to bow, to this artificially manufactured storm, at least to the extent of permitting the Teller resolution of sympathy to go through without opposition from the republican side.

At present, however, there is no such disposition among the republican leaders. They look upon the efforts of the democrats as unfair politics, as a contemptible trick, which should not be countenanced by any dignified public man. It is the sort of politics that no party ought to try to play—neither the democrats when the republicans are in power nor the republicans when the democrats are responsible for the government.

Unless the majority senators lose their courage they will continue to stand resolutely against this ill advised and ineffectual scheme to meddle in foreign affairs for political effect at home.

JACK CHINN TOLD A GRAPHIC STORY

Relates the Details of the Assassination Before a Jury at Frankfort Today.

Frankfort, Ky., May 4.—[Special Telegram]—The Culton case for bail was resumed this morning. There has been little evidence thus far to connect him with the crime, and it is almost certain he will get bail. The first witness today was Capt. Hawn of Barbourville. He said that John Powers wanted him to take his military company to Frankfort disguised as citizens, before the assassination. He did not go till January 20.

Jack Chinn told a graphic story of the shooting. He was positive the shot was fired from the secretary of state's office. Ed. Steffen, a messenger boy, was on the state house steps when Goebel was shot. The sound of the shots came from the executive building. He saw a rifle slightly protruding from a window in the secretary of state's office.

A New Religion.

A new "religion" has been invented in Rockmart, Ga., by a Mrs. Roberts, one of the tenets of which consists in offering animal sacrifices. Mrs. Roberts is high priestess and has now eighteen followers. She was formerly a member of the Baptist church for thirty years. Converts to the new faith are made by "force and fear," and the community is being terrorized. One of the beliefs of the faithful is that all who ride bicycles will be damned.

FINE CONCERT IN MILWAUKEE

Musical Society Celebrates Its Golden Jubilee With Good Program.

Milwaukee, Wis., May 4.—Not since the great Sangerfest of 1886 has there been such a musical event in this city as the concert of the Milwaukee Musical society last night in celebration of the golden jubilee of that organization. There were over 5,000 people in attendance at the concert in the exposition building. There were over 600 voices in the choruses. These, with an orchestra of eighty pieces, united in rendering the best program that has been given here for years.

The choruses were remarkable not only for the volume but also for the quality of the tones. The solo work was done by Frau Schumann-Heink, Johanna Gadske, David Biepham, and Andreas Dippel, and was remarkable even for these operatic stars.

TWO EMPERORS MEET AT BERLIN

Franz Joseph Will Attend the Crown Prince Coming of Age Ceremony.

Berlin, May 4.—[Special Cablegram]—The Emperor Franz Joseph of Austria accompanied by Golschowski, his foreign minister and suite, arrived at Potsdam today to attend the ceremony of the coming of age of the Prussian Crown Prince Sunday. They were welcomed by the Kaiser and other notables. The two emperors drove to the castle cheered by a throng of two hundred thousand people. All Berlin is enfeeted and the decorations are elaborate.

MAY HAVE TO BURN MANY OF THE BODIES

Not Enough Coffins at Scofield to Provide Decent Burial—250 Lives Lost.

Salt Lake City, Utah, May 4.—The latest dispatches from Scofield say that the extreme estimate of dead is now conceded to have been too large, and that it is numerically impossible to place the loss of life at 300, as there were not that many men in the mines. The probabilities are that 250 will be about the total number of dead.

There are not enough coffins in the camp to bury the dead, and to add horror to the situation the bodies are rapidly decomposing and cremation may have to be resorted to. There are fifty bodies for which no provision for burial has been made.

Preparations for the funeral are actively going on. One hundred and fifty bodies are now ready for the coffins. The bodies will be buried in military fashion, in two long trenches that are now being dug on Cemetery hill by the railroad graders.

TO REWARD THEIR GOOD SERVANTS

Milwaukee Railway Officials Making Plans for a Relief and Pension Fund.

Chicago, May 4.—An elaborate relief and pension plan will be submitted to the employees of the Chicago, Milwaukee and St. Paul Railroad Company June 1. The project has been under consideration by the management of the system for several months. It embodies many new features.

No relief or pension system ever has prevailed on this road. The plan now under consideration will embrace all the best features of the relief department of the Baltimore and Ohio and the pension fund of the Pennsylvania company.

According to the Milwaukee plan the fund for the relief and pensioning of employees will be obtained by specified installments from the men and a yearly cash contribution from the treasury of the company to establish a fixed annual sum of available money.

After serving a specified number of years employees will have an option of retiring on pensions when they reach the age of 60 and none will be permitted to serve after he is 80 years old. The pensions will be based on the salaries received at the time of retirement.

LAW TO PROTECT SONG BIRDS

Strikes a Fatal Blow to Headgear of Fashionable Women.

New York, May 4.—According to the Hallock bill, which has been made law by Governor Roosevelt's signature, women may wear and milliners may sell the plumage of sparrows, crows, hawks, crow blackbirds, common blackbirds, cranes, jays and kingfishers. The law makes it a misdemeanor, however, for anyone to sell or wear the plumage of such birds as quail, pheasants, wild duck, pigeon, meadowlarks, grouse, woodpeckers and all song birds. It was claimed for the law that it struck a fatal blow at this present headgear of fashionable women. The Audubon Society looked upon the passage of the bill as a great victory as its members had worked long and earnestly for its enactment.

A milliner up town expressed the fear that a gamekeeper could under this new law enter the premises of a dealer and impose a fine of \$60 for each part of a wild bird found, however it was procured.

STEEL TRUST IN FEDERAL COURT

In Restraint of Trade and Contrary to Public Policy.

DECLARED A MONOPOLY

Green Bay Firm Claims the American Steel Company Contracts Illegal.

JUDGE SEAMAN CONSIDERING

Milwaukee, Wis., May 4.—[Special Telegram]—An attempt is being made in the United States court to have the American Steel Company declared a monopoly and its contract illegal as being in restraint of trade and contrary to public policy.

The company is being attacked by Goltfredson Bros. Hardware Company of Green Bay in resisting suit that has been instituted by the company to recover \$289.16, which the company claims is due on its contract.

Replying to the charges the Hardware Company makes the assertion that it has paid all that is justly due the company.

The matter came before Judge Seamen this morning upon a motion whereby the Steel and Wire company is endeavoring to have the sensational charges and accusations stricken from the answer.

Judge Seamen said the question was a very important one for if the charges of the answer were true the company would have no standing in court. He took the matter under advisement.

IOWA DEMOCRATS SHY OF 16 TO 1

State Convention Handles the Question Gently—Delegates are Instructed for Bryan

Des Moines, Ia., May 4.—Democrats from every county in the state were in attendance yesterday when the state convention for selection of delegates to the Kansas City convention was called to order, and although keen rivalry marked the preliminary work and showed itself in the work of the convention itself, the meeting was in good feeling and harmony.

The conservatives, who believe that it was not good policy to make specific reference to silver at 16 to 1, controlled the convention. The silver element was strong, but not strong enough to secure a specific declaration in the platform.

The resolution committee made no mention of ratio, and the temporary chairman and all other speakers likewise avoided all reference to 16 to 1. But when the subject of free silver was mentioned indirectly, the ultra silver men would raise a yell and the demonstration showed them to be a large and formidable minority.

For delegates-at-large to the Kansas City convention the following were elected: Cato Sells of Vinton, Charles A. Welch of Ottawa, John S. Murphy of Dubuque, George Baker of Davenport.

DEWEY ARCH FUND IS SLOW.

New York Shows Little Interest in the Naval Memorial.

New York, May 4.—Secretary Nichol of the naval arch fund says that it will be a long time before the \$500,000 that must be in bank before the reconstruction of the Dewey arch is attempted can possibly be raised. "The interest is dead," he said, "and there is no definite plan in view to revive it. The executive committee has talked of various ideas, but nothing has presented itself which seems worthy of endorsement. The Damrosch benefit at the Metropolitan opera house netted a fund to which the expenses of the commission will be limited. Not a dollar of the subscription will be touched. The subscription money has been placed in bank and should it be decided useless to continue our task every subscriber will receive back his contribution to the last penny. Not only that, but fifty members of the committee have guaranteed that the subscriptions shall remain intact. If, therefore, any money should be expended in addition to the sum received through the benefit, those fifty men will, if necessary, pay it themselves."

Blood Troubles:

Cancer, Scrofula, Old Sores, Rheumatism, Contagious Blood Poison, Chronic Ulcers.

As the blood contains all the elements necessary to sustain life, it is important that it be kept free of all impurities, or it becomes a source of disease, poisoning instead of nourishing the body, and loss of health is sure to follow. Some poisons enter the blood from without, through the skin by absorption, or inoculation; others from within, as when waste products accumulate in the system and ferment, allowing disease germs to develop and be taken into the circulation. While all blood troubles have one common origin, each has some peculiarity to distinguish it from the other. Contagious Blood Poison, Scrofula, Cancer, Rheumatism, Eczema and other blood diseases can be distinguished by a certain sore, ulcer, eruption or inflammation appearing on the skin. Every blood disease shows sooner or later on the outside and on the weakest part of the body, or where it finds the least resistance. Many mistake the sore or outward sign for the real disease, and attempt a cure by the use of salves, liniments and other external applications. Valuable time is lost and no permanent benefit derived from such treatment.

BLOOD TROUBLES REQUIRE BLOOD REMEDIES; the poison must be completely and permanently eradicated—the blood reinforced, purified and cleansed, or the disease goes deeper and saps the very life. Mercury, potash and arsenic, the treatment usually prescribed in this class of diseases, are violent poisons, even when taken in small doses—never cure, but do much harm by adding another poison to the already overburdened, diseased blood.

SSS

S. S. S., Nature's own remedy, made of roots and herbs, attacks the disease in the blood, antitoxins and forces out all impurities, makes weak, thin blood rich, strong and healthy, and at the same time builds up the general health. S. S. S. is the only purely vegetable blood purifier known, and the only one that can reach deep-seated blood troubles. A record of 50 years of successful cures proves it to be a reliable, unfailing specific for all blood and skin troubles.

Free Medical Treatment.—Our Medical Department is in charge of skilled physicians, who have made blood and skin diseases a life study, so if you have Contagious Blood Poison, Cancer, Scrofula, Rheumatism, Eczema, an Old Sore or Ulcer, write them fully for advice about your case. All correspondence is conducted in strictest confidence. We make no charge for this service. Book on blood and skin diseases free. **SWIFT SPECIFIC CO., Atlanta, Ga.**

A Statement by a Well Known Citizen Who Has Found Great Relief by Using It.

The great good that Morrow's Kid-ne-oids are doing in Janesville for all forms of kidney and urinary disorders is being daily told by our citizens. A man who uses Kid-ne-oids for backache, dizziness, sleeplessness, nervousness and general debility give hearty expression of the quick relief they obtained.

Mrs. A. H. Taylor, 60 Prospect Ave., whose husband is a painter in Kent's shop, says: "My husband has complained of kidney backache for the past two years. He was also subject to rheumatism in his joints and to spells of dizziness and nervousness. He could not sleep or rest on account of his troubles. He was treated by doctors and took different kinds of kidney remedies, but only temporary relief followed, until he heard of Morrow's Kid-ne-oids and used them according to directions. Since using Kid-ne-oids he has not complained of backache or any of his former troubles, he sleeps well and looks so much better."

Morrow's Kid-ne-oids are not pills, but yellow tablets, and sell at fifty cents a box at all drug stores and at The People's Drug Co.'s store.

TAKE NO CHANCES.

Senator M. A. Hanna, in a recent interview, gave the republicans of this country some excellent advice: "Republicans," he said, "should make the same kind of a fight they did in 1896. There should be no cessation in their endeavor to elect their candidates, and their application and attention to the details of the campaign must be steady and unceasing. They should go into the contest on the supposition that hard work is absolutely essential to victory. The spirit of republicans this year is of a most gratifying kind, and all reports which I have received are all to the same effect. Evidence is plentiful that the republican party all over the country realizes fully the necessity of entering the campaign with earnestness and determination to win a victory. In going over the list of states that cast their electoral vote for McKinley four years ago, I do not see any which will not do the same thing this year unless it be Kentucky. That state I am placing in the doubtful column, although we certainly propose making every effort to carry it. I regard Maryland which the democrats are claiming, already as reasonably certain to remain in the republican column. Besides holding our own in practically all the states that we carried in 1896, we have reason to believe that the republicans will carry Kansas, South Dakota and Washington which went for Bryan four years ago, while our chances are excellent, I am informed by Senators Shoup and Carter of winning Idaho and Montana, the states which they represent in the senate. Altogether I am pleased with the outlook which could not be any more encouraging than it is."

Milwaukee Journal—Congressman Cooper is to be congratulated for his victory over the senate and forcing his amendment limiting the granting of franchises in Porto Rico. No authority should be permitted to grant absolute franchises at will. This has been well known since the Dartmouth college cases were decided. The one essential thing is that they should be granted subject to amendment and termination; other conditions and restrictions may be both proper and needful, but this should never be omitted. Mr. Cooper did a good thing in more than one respect.

The announcement that Senators Spooner and Beveridge were vying for the name of being the "spokesman of the administration" leads W. E. Curtis, Washington correspondent of the Chicago Record to say: "Mr. Spooner knows what is going on as well as anybody, and can lay his hand upon the authorized representative of the administration in the senate at any time, day or night and will not be compelled to reach very far to do it."

Madison Journal—With John M. Whitehead as a candidate for governor, Mr. LaFollette can hardly urge in explanation of entering the arena that the possible downfall of the republic necessitates it. If "Bob comes out" it will be because he wants to be governor.

Congress has provided an appropriation of \$25,000 for the public building at Janesville. This is not in addition to the limit of cost which was fixed at \$50,000 last winter, but is to continue work during the fiscal year of 1901.

The fact that General Merritt is about to retire for age again brings up the question of whether or not the rank of lieutenant general should not be revived for general merit rather than for General Miles—old joke in slightly altered form.

General Alger has just invested \$2,000,000 in Alabama timber lands. Gen. Miles will now doubtless feel called upon to purchase another uniform, and take another promenade before the looking glass.

And we suppose that Admiral and Mrs. Dewey also note the fact that republican and democratic state conventions uniformly endorse Mr. McKinley

and Mr. Bryan respectively, and with considerable May day enthusiasm, too.

However, the statement that Milwaukee is to have a bad tournament should not be construed to mean that the Cream City is unable to toot its own horn.

Constant Reader—The name sounds familiar, but we cannot place the Mr. Macrum you speak of, and therefore cannot give you any information as to his present whereabouts.

When Admiral Dewey took his trip on the Chicago river it probably required all his powers of imagination to think that he wasn't crossing a damp farm on a mudscrew.

North street crossing cannot be made safe by putting up gates. It is a dangerous place, and the only safe arrangement would be to vacate the crossing and build a viaduct over it.

"Peace hath her victories no less renowned than war," yet Dewey didn't capture Chicago, and the celebration was a frost.

Things usually go by contraries, but just at present the Milwaukee base ball club is much like the Milwaukee team—at the top.

The gentlemen who were so sure of Congressman Minor's defeat apparently have another prognostication coming.

The dentists also found Janesville a pleasant place to meet, and had no trouble in filling in their time.

Saturday Evening Post

The Saturday Evening Post continues to be one of the most excellent literary weeklies published in this country. It is a delight every time it comes—new, fresh and crisp. By the Curtis Publishing Co., Philadelphia, Pa.

Robert Tourney, the novel of the French Revolution, by William Sage, to be published in May by Houghton, Mifflin & Co., is being dramatized for Daniel Frohman, who will stage the play with one of several eminently fitted stars in the title role. The story is replete with highly dramatic situations, and abounds with a romantic interest that would quite fit the play to the abilities of E. H. Stoddern or James K. Hackett. The author will dramatize the book and his mother, Mrs. Abby Sage Richardson, the well known writer on American history and English literature, and the adaptor on the stage of several well-known books. One of these was Mark Twain's "Prince and Pauper," while her most recent work is a dramatization of Egerton's Castle's romantic story, "The Bride of Jennico," in which J. K. Hackett has just scored another big success in New York. It is hoped Robert Tourney will be produced this spring—certainly in the fall.

Offers a Reward of \$1,000.

Helena, Mont., May 4.—A. J. Shores, vice-president of the Montana Central, who is in Helena, has offered a reward of \$1,000 for the arrest of the person who threw the switch at Great Falls, wrecking the overland passenger train on the Great Northern. The striking trainmen deny all knowledge of the act and say the company had it done to bring the strikers into disrepute. The strikers have affiliated themselves with the Western Labor union, and in a long statement to the public declare they will not interfere with the movement of mail and passenger trains and maintenance violence.

METHODIST PASTORS' MEET

Rev. Walter A. Hall of Janesville Presided as Secretary.

The Ministerial association of the Janesville district was held at the Methodist church in Elkhorn Monday and Tuesday, and owing to the gathering of the delegates for the general conference which convened in Chicago on Wednesday, the attendance at the meeting was not as large as was anticipated. SPECIAL MEETING OF BOARD

Some Disposition May be Made of the Old County Jail.

A special meeting of the Rock county board of supervisors has been called to be held at the court house on May 22. The purpose of the meeting is to organize and elect officers. It is also said that the members will take under consideration the disposition of the old jail and residence in connection. Several applications have been received from persons who are willing to rent the residence but what to do with the old jail structure still remains a mystery.

The Magazine of the Hour

To produce a better magazine each month seems to be the purpose of the publishers of "The National Magazine." The May number is at hand, filled from cover to cover with bright, readable and timely articles and stories. Joe Mitchell Chapple's gossip of "Affairs in Washington," always a delightful feature, has the real breath and atmosphere of May time at the capital, and cannot fail to interest every reader. Over 100 illustrations appear, and the number contains much charming fiction by American authors. "The National" is a periodical that is rapidly growing in favor, and fully deserves the success it has attained.

"In and Out of Congress" gives a view of men who are at present very much in the public eye. Another installment of "The Knave of Conscience" sustains the interest aroused by the first chapters. The second part of "The Confessions of a Worldly Woman" is bright and piquant. "The Grand Old Man of Indiana" is an interesting sketch of a famous orator. "Jack London and the Son of the Wolf," by Maitland Laroey Osborne, deals with a new author of great promise.

DISPOSES OF EIGHT HUNDRED
AND THIRTY CASES.

Large Eastern Manufacturers Are the

Considerable Goods—Plant Beds
Showing Up Well These Days.

A straggling business is still being done with the remnants of the '99 crop. Each week witnesses the gathering in of a good slice of the balance outstanding in first hands and the country districts will soon be picked up closer than for many years past. Most of the bundle crops have been marketed and yet there is some continually to be found that can be lifted at moderate prices says the Wisconsin Leaf Tobacco Reporter.

Geo. Rumpall has been riding in the vicinity of Oregon and Stoughton during the week purchasing several lots at the going quotations. Some old leaf is yet moving. Frank Baines being credited with the largest transactions of the week, some 830 cases of '97 and '98 goods to eastern manufacturers. L. B. Carle & Son report the sale of a 150 case lot of '98 and Geo. Rumpall 114 cases of '97 and '98. C. L. Colton reports the sale of 300 cases of '98. Warehouse handling is still being carried on at quite a number of the packing points.

The plant beds are everywhere showing up finely, but in some cases it is feared are two forward. The young plants are in abundance and need only proper attention from this time on.

The shipments out of storage amount to but 780 cases, 15 carloads for the week past from this station to all points. Since last report 785 cases of cigar leaf were exported from New York.

ARBOR-BIRD DAY WAS DULY OBSERVED

INTERESTING ATHLETIC MEET
AT THE FAIR GROUNDS.

Many Were in Attendance and the
Events Were Closely Contested—
Special Programs Held in All the
Schools—Adams School Pupils Ob-
served the Day.

Arbor and Bird Day was observed in Janesville today in a way that was most fitting. In the public schools this morning special programs were held consisting of recitations, readings, remarks and music.

In many instances the planting took place in the school yards but this custom was not observed at the high school grounds on account of the ground space being limited. One of the most interesting of all the programs was given by the pupils of the Adams school who held their exercises on the large bluff belonging to Mrs. J. J. R. Pease located between Prospect avenue and Pease Court.

The pupils met at the school building and in a body marched to the ground where exercises took place at 10 o'clock. The program that followed consisted of recitations, essays, songs and remarks. Those who took part in the program did themselves proud. Rev. A. C. Kempton was present and delivered remarks covering the observance of the day.

At noon all the schools closed. This afternoon at the fair grounds many of the scholars assembled in attendance at the high school athletic meet. The day was an ideal one and each event was warmly contested.

the route of travel from Chicago. The
climax came when the regimental

Three Men Arrived in the Bower
City Yesterday Having Been En-
gaged on the Work During the Past
Three Weeks.

Thirty-three workmen employed by
the Wisconsin Telephone company com-
pleted today two special metallic tele-

kee. Three weeks ago this crew left the
Cream City and have since been forging
towards Janesville under the able fore-

At 11 o'clock this morning Mr. Jackson
reported to the main office at Milwaukee
that the proper connection had been
made into the central office at Janesville
and that two new metallic lines connect-
ing Janesville and Milwaukee were com-
pleted.

The work of stringing these two new
metallic lines has cost a small fortune
and gives direct service from here to
Milwaukee. The new lines run via
Whitewater and are strung along the
company poles that have been in use for
some time. The crew of thirty-three
men will make Janesville their head
quarters for a few days as they intend
to commence work at once on the Janes-

PROSPECTUS

OF THE

SIEGEL-COOPER CO. CO-OPERATIVE STORES,

NEW YORK AND CHICAGO.

Profit-Sharing with Our Patrons—Co-Operation with Our Employees.

Reasons
for
Consolidation.

The great success attained since 1887 by Siegel, Cooper & Co. has induced and given warrant to the enterprising owners to further ingratiate themselves into public favor by consolidating their two mammoth establishments into a co-operative enterprise on a profit-sharing basis. They recognize the tendency of the present age to be in the direction of co-operation of employers with employees, as well as in profit-sharing with patrons.

The New
Company.

To accomplish this desired condition a new company, the Siegel-Cooper Co. (Co-operative Stores, New York and Chicago), has been incorporated under the laws of the State of New Jersey, with a capital stock of \$24,000,000, of which \$14,250,000 is divided into 285,000 shares 5% cumulative Preferred Stock of \$50.00 par value, and \$9,750,000 into 195,000 shares Common Stock of \$50.00 par value. The charter of the Company provides that after full dividends of 6% per annum have been paid on the Preferred Stock, and full dividends of 3% per annum have been paid on the Common Stock, all additional dividends shall be apportioned and paid on the basis of $\frac{1}{2}$ in amount on the Preferred Stock and $\frac{1}{2}$ in amount on the Common Stock.

Dividends.

To carry out the plan of co-operation with its employees, \$2,000,000 of the Common Stock has been placed in trust, the annual dividends of which will be distributed among such employees as have been or may hereafter be with the New York or Chicago establishment for a period of three years, during their satisfactory continuance in the service of the new Company; such dividends will also be continued and paid to employees for life who, after ten years of service with the new Company, become incapacitated for further employment, thereby practically providing a pension fund for faithful employees in their old age.

Plan of
Co-operation
with
Employees.

To carry out the plan of Profit Sharing it is proposed by the present owners, who are the owners of all the stock of the new company, to offer to the public through the undersigned 200,000 shares (fully paid and non-assessable) of the 5% cumulative Preferred Stock at par; upon which the full 6% dividend must always be paid before the Common Stock receives any dividend whatever, the Preferred Stock also having a prior right to all the assets of the company.

Profit
Sharing
with
Public.

In order to give double assurance to the general public, whom it is desired to interest as stockholders (instead of speculators) and who may not be fully conversant with such investments, the money required to pay dividends on said 200,000 shares has been set aside and will remain on deposit with the Central Trust Company of New York and the Illinois Trust and Savings Bank of Chicago respectively to secure the dividend of 6% per annum, payable 3% semi-annually, for a period of five years, i. e., until July 1st, 1905, on all such Preferred Stock as may be allotted in their respective territories, and each certificate of stock so allotted will have an indorsement by said Trust companies respectively to that effect. We thereby offer not only an absolutely safe 6% investment, but one which will without question yield considerably more.

Guarantee of
Dividends.

No Common
Stock to
Be Sold.

Under no circumstances will any of the Preferred Stock not so allotted, nor any of the Common Stock, be sold, the present owners having no desire to sell out, but intending to remain with the business; they will therefore not part with any more stock than they believe necessary to fully carry out their plans for co-operation and profit-sharing, as previously stated.

The
Influence of
New Stock-
holders.

The owners confidently believe that, by inaugurating the liberal policy above outlined towards their employees, they will in return be rewarded by more faithful service and courteous attention to patrons, the result of which must be beneficial to the new company, as well as augment the continued good will of the public.

Furthermore, it can be calculated to a certainty that with many thousands of new stockholders exerting their personal influence toward the success and welfare of the business larger patronage and correspondingly greater earnings for the new company will be assured. It is from the increased benefits and material advantages which these changed conditions are expected to bring about that the present owners feel confident of better pro-rata remuneration on the stock which they retain and in a measure justifies them in parting with any portion of their interests in an established and exceptionally profitable business.

The Inaugural
day of the New
Company.

The SIEGEL-COOPER CO. Co-operative Stores will take possession Monday, July 2d, 1900, of the two great department stores of Siegel-Cooper Co., New York, and Siegel, Cooper & Co., Chicago, in their entirety, covering a floor space of over thirty acres, with their millions of dollars' worth of Merchandise, Store Fixtures, Delivery Plants (consisting of many hundreds of Horses, Wagons, etc.), Machinery, extensive Stable Properties and all appurtenances required for the complete operation of the two stores, and also its palatial fireproof store building and real estate in New York City which alone represents an asset of many millions of dollars, free of all encumbrances or indebtedness whatever, so that the Siegel-Cooper Co. (Co-operative Stores, New York and Chicago) will start its career without owing a single dollar.

For the good and sufficient reason of not wishing to divulge the details of our business to our competitors we present no balance sheet for publication. We do not, however, desire to ask our patrons or the public to rely exclusively on our representations, and therefore the money required has been set aside and will remain on deposit.

Profit's
Past and
Prospective.

posit with the above named Trust Companies to absolutely secure the dividends on all the Preferred stock to be allotted as stated. Moreover, we allude with pride to the fact that the Chicago establishment has since its inception paid millions of dollars in dividends to its stockholders, and that the New York establishment, while only in its fourth year, is not only doing a larger business than the Chicago store, but is also on a most profitable dividend paying basis. We can also say for the benefit of subscribers that the net earnings of our two establishments for the past year were largely in excess of the amount required to pay the dividends on all the Preferred Stock of the new company.

Management.

There will be no change in the management, and the same men who thirteen years ago started the original Siegel, Cooper & Co. store in Chicago (and later its sister store in New York), and who have achieved a success almost without parallel in modern retailing, have pledged themselves to continue in the management of the business of the new company the same as in the past, and they will deposit with the Central Trust Company of New York all of their stock holdings for a term of years to secure such pledge.

How to Sub-
scribe for
Stock.

Subscriptions for the 200,000 shares of the Preferred Stock will be received in person or by mail on blank forms provided for that purpose at the office of Siegel, Cooper & Co., Chicago, beginning at 10 A. M., Monday, May 7th, 1900, and will continue for a period of one week; the right, however, is reserved to close subscriptions upon one day's notice in any one of the Chicago daily papers.

Allotment.

All subscriptions must be accompanied by money, check, money order or draft payable to Siegel-Cooper Co. to the amount of 20% of such subscriptions (equal to \$10.00 per share), for which proper receipts will be given.

Notice will be given as soon as practicable of the number of shares allotted to each subscriber, and the balance due must be paid to the Illinois Trust and Savings Bank, corner La Salle street and Jackson boulevard, Chicago, as agent of the vendors, on or before July 5, 1900, and said bank will thereupon make delivery of the stock delivered to it for that purpose, pursuant to the allotments thereof.

With a view of extending the benefits of our offer to as many of our patrons and the public as possible it is proposed to allot the stock in the following order, namely:

1st—To all subscriptions for one share.
2d—To all subscriptions for two shares.
3d—To all subscriptions for three shares.

And to continue in the same order for larger subscriptions until the entire 200,000 shares have been allotted.

Respectfully,

SIEGEL-COOPER CO.

(Co-operative stores, New York and Chicago.)

FREE HOMES BILL PASSES.

About 2,000,000 Acres Available
for Agriculture.

WAS PENDING SEVERAL YEARS.

Washington, May 4.—The house without division passed the "free homes" bill which has been pending before congress for a number of years. The bill provides that the government shall issue patents to actual bona-fide settlers on agricultural lands of Indian reservations opened to settlement. These lands were taken up by settlers who contracted to pay for them \$1.25 to \$3.75 per acre. By the terms of the bill the government assumes the payment of the purchase price to the Indians and changes the existing law relative to agricultural colleges so as to insure the payment of the endowments, which heretofore have come out of the sale of public lands in case of deficiency. These payments involve \$1,200,000 annually. Of the 29,000,000 acres in Indian reservations opened to settlement for which the government is to pay or has paid \$35,000,000, about 8,000,000 acres have been taken and about 2,000,000 are supposed to be still available for agricultural purposes. A remarkable thing in connection with the passage of the bill Thursday was a speech in its favor by Galusha A. Grow of Pennsylvania, who forty-eight years ago fathered and passed the original homestead bill. He was then the youngest and is now the oldest member of the house.

The remainder of the day was devoted to the sundry civil appropriation bill, the last but one of the great supply bills.

Print-Paper Protest.

Washington, May 4.—Representatives of the American Publishers' association have presented a memorial to the senate finance committee asking that some relief be afforded on account of the higher price of paper. The delegation said the association represented 22,000 papers. No particular legislation was advocated. The resolution recited that the price of printing paper used by newspapers has increased from 60 to 100 per cent without reason or warrant to be found in the conditions of the industry, which was believed to be the work of a trust. A copy of the resolution also was presented by the delegation to the house ways and means committee.

Porto Rican Postmasters Named.

Washington, May 4.—Fourth Assistant Postmaster-General Bristow has signed the commissions of seventy-four postmasters to fill positions in Porto Rico. This action continues in office under the new civil government of the island the incumbents who have been serving under military. About sixty-five of these postmasters are residents of the island. They will hold office on the same terms as do fourth-class postmasters in this country.

Surveys on the Great Lakes.

Washington, May 4.—Admiral Bradford, chief of the bureau of equipment of the navy department, is making a strong fight to have the appropriation for hydrographic work, which was greatly reduced by the appropriations committee of the house, restored to the original amount in order that the work of surveys and soundings on the great lakes may be continued.

Appointment for Michigan Man.

Washington, May 4.—The president has sent this nomination to the senate:

To be commissioner on the part of the United States on the Chilean claims commission, William Glover Gage of Michigan.

Clark Case Postponed.

Washington, May 4.—The senate adopted the motion of Mr. Hoar to take up the resolution of the committee on elections declaring that Mr. Clark of Montana was not duly elected to the senate, and then postponed consideration of the question for a week.

CONSULAR SERVICE BILL.

Committee Agrees to Report That Measure.

Washington, May 4.—The senate committee of foreign relations has concluded the consideration of the bill for the reorganization of the consular service and agreed to report as a substitute for the original senate bill a measure prepared by the state department. The bill provides a system of examination for consuls, consuls general and commercial agents, but exempts vice consuls and vice consuls general, deputies and consular agents from its requirements. These latter officials are to be appointed as heretofore under executive regulations. Under the bill there are to be two consuls general of the first class who are to receive \$10,000 each per annum, eight of the second class at \$8,000, thirteen of the third class at \$6,000, and thirteen of the fourth class at \$5,500. Of consuls there are to be thirty-seven of the first class at salaries of \$5,000 each, thirty-five of the second class at salaries of \$4,000, sixty of the third class at \$3,000, forty of the fourth class at \$2,500, thirty of the fifth class at \$2,000 and fifty of the sixth class at \$1,800. All fees received by those in the consular service except consular agents are to be paid into the treasury. The proposed classification is to be made within one year. The present incumbents of the consulates, consulates general and commercial agencies are to be gradually recalled for examination within two

years, and after passing they are to be readmitted to the classes from which they are recalled. The bill provides for a board of examiners, consisting of state department officials, and the board is given authority to fix the scope and method of its examination. Consuls and consuls general are to be transferred from one place to another in the same class at the will of the president, but no naturalized citizen of the United States is to be assigned to the country of his nativity. Persons employed in the state department for two years are made eligible for appointment to places in the consular service at the same salary without examination.

Is a genuine specific for diseases of the stomach and organs of digestion and nutrition. No other medicine has had so remarkable a success in curing diseases affecting the heart, liver and lungs, whenever these diseases, as is commonly the case, were caused by "weak stomach" and impure blood. Food imperfectly digested cannot be perfectly assimilated. "Golden Medical Discovery" restores the organs of digestion to perfect working order. Foul blood must result in a foul body. The "Discovery" purifies the blood and increases the activity of the blood-making glands, so increasing the quantity and quality of the blood supply. It has been tried by over half-a-million people. It has cured ninety-eight out of every hundred who have tried it.
